are meticulously crafted by a few select craftsmen who still practice the fine art of millwork, using only real wood panels and solid wood mouldings. All units are hand cut and many feature stunning hand-carved mouldings such as leaf cut designs, flowers, fluted columns, beadwork or dentil moulding.

Elegantly crafted Fog Free mirrors from ThermaSol feature a one-inch beveled edge and are made of shower-safe glass. Convenient and practical, they make a great statement in any bathroom. The approximate overall sizes of the mirrors are 18 inches by 24 inches. The four distinctive designs include Aphrodite, Neptune, Venus and Zeus. The electrical component is low voltage with a step-down

transformer that operates on any standard household current. Creative installation ideas include inside showers and steam rooms and above bathroom vanities.

ClosetMaid®, a part of Emerson Storage Solutions of Emerson Electric Co., offers home storage products to organize every room in the home. Its linen shelf is the answer to every basic storage need, particularly for smaller spaces. It is available in depths of six, nine, 12, 16 and 20 inches. ClosetMaid ventilated wire shelving is the industry's longest lasting and most durable. Its wire basket systems are versatile storage systems that are available in three widths—13, 17 and 21 inches—and three heights—four, seven and 10 inches.

Custom designed linen closets and towel caddies from Vanity Flair, a Furniture Guild Company, make storage in the bath attractive. The Tuscan linen closet tower's hand carved contours keep everything out of sight while lending a touch of tradition. In bathrooms where space is tight, Vanity Flair offers more compact storage solutions, including tub and towel caddies. The two-shelved towel caddy attractively corrals toiletries from soaps to scrub brushes. A slightly smaller tub caddy has one shelf and offers another great option for storing essentials, including towels.

The Modern Craftsman Pull decorative hardware from Atlas Homewares adds cool sophistication to bath cabinetry. The handcrafted design is 14 inches long and is offered in brushed nickel, satin brass, oil-rubbed bronze, craftsman copper, pewter and rust. Atlas also offers the Dap, a mid-century, modern, mega-size pull that's irresistible to those with a weakness for tall and handsome good looks. It is available in dark black, matte black, brushed nickel, polished chrome or satin brass and is 10 inches long.

NuTone® Inc., a subsidiary of Broan NuTone LLC, has introduced the iColor™ Collection of medicine cabinets to add a splash of color to the bathroom. The cabinets are available in six bold hues including Fire Red, Lemon Yellow, Racing Green, Cobalt Blue, Sunburst Orange and Metallic Onyx. To ensure color durability, the steel cabinets feature a baked-on powder coat finish. Also from NuTone is the City Collection™ of medicine cabinets that combine superior storage space, high-quality construction and decorative wood frames in a variety of wood finishes.

Timberlake Cabinet Company™, a division of American Woodmark Corporation, has introduced the Scottsdale® Collection to its family of cabinet door styles. The collection features a standard overlay, raised

panel design on classic arch and square doors. Customizing options and accessories for Scottsdale make it easy to create one-of-a-kind baths. It is available in maple and oak. The maple is available in natural, honey and spice finishes or new coffee and mocha premium finishes. The oak is available with natural, honey and new tawny finishes.
