Exotic Sapele Veneer

FOR IMMEDIATE RELEASE:

Something *EXOTIC* Is Going On!

Zebrawood! Sapele! Ash Burl! Be enticed by the Exotic Woods from Vanity Flair.

(Canton, GEORGIA). The Furniture Guild introduces the Vanity Flair Masterpiece Collection, featuring an enticing line of custom bathroom vanities with exotic wood veneers. Master craftsmen at Vanity Flair, making discriminating selections from the endless variety of wood species available, have created one-of-a-kind vanities that capture the inexhaustible richness of texture, color and patterns in wood veneer.

There is a natural beauty in these exotic veneers that delight us over and over again. On finer furniture and true antiques, veneers were and are still used to create an enhanced beauty. Interestingly, Egyptians used veneers over 5000 years ago. While providing design possibilities that are not attainable with solid stock, these exotic woods have the additional asset of being ecologically prudent. Among the domestic and exotic wood species utilized by Vanity Flair in their exquisite creations are Ash Burl, Walnut Burl, Zebrawood and Sapele.

The origins of these decorative woods chosen for the Masterpiece Collection are quite diverse. Zebrawood, known for its dramatic color banding, is obtained from Central Africa. Ash Burl, marked with burls and swirls, has its source in Europe. Walnut Burl, found in North America, now ranks as one of the most expensive and sought after veneers. Sapele grows widely in the tropical rain forests of West, Central and East Africa.

The Masterpiece Collection featuring exotic veneers and 3cm Crema Marfil Marble tops joins Vanity Flair's exciting line of standard and custom vanities. Offering over 40 designs in over 40 finishes, Vanity Flair will create a custom vanity made especially for your bathroom in an unmatched lead-time of 4 to 6 weeks. Options available include custom double bowl pieces, his and her custom pieces, tub surrounds to match and custom medicine cabinet surrounds.

With the Vanity Flair Collection, the Furniture Guild answers the age-old questions about using furniture as vanities in the home. From creating the designs, through manufacturing, to the artistry and final finish application, the company has adopted the needed dimension to "make it work." Vanity Flair cabinets are available in a wide variety of designs and styles, ranging from country waxed cherry pieces to formal European classical designs with special hand decoration motifs. Over 40 finishes are available, including traditional paints and stains, European crusty old paint, textured gesso, gold leaf and panels upholstered in fabric.
